

Statement of Compliance with the FY24 Changes in the Ohio Revised Code Section 3317.26

The Fort Recovery Schools currently coordinates direct services in the area of student wellness and success needs with the Mercer Co. Educational Service Center . Recent changes in the Ohio Revised Code have added a requirement for local, city and exempted village districts to also coordinate with a second organization for student wellness activities. Therefore, this public notice of a change in our plan will include the coordination of TriCounty ADAMHS Board effective October 17, 2023. This modification to our plan does not change any of the current practices within our organization since the district already coordinated these types of services with the TriCounty ADAMHS Board and its sub organizations. We utilize community resources based on the needs of the Fort Recovery students.
